

NEBOSH

INTERNATIONAL GENERAL CERTIFICATE

NVIRON 2026

INTRODUCTION

NEBOSH IGC course focuses on how health and safety management can be applied in the workplace. The new NEBOSH IGC syllabus has been streamlined to allow core skills to be considered in greater depth. It covers how to effectively manage health and safety, and how to identify, reduce and control the key hazards in every kind of workplace. Risk assessment is central to the IGC qualification, making sure it reflects the real-life roles people perform.

COURSE CONTENT :-

Unit GIC-1 : Management of Health and Safety

- Element 1: Why we should manage workplace health and safety
- Element 2: How health and safety management systems work and what they look like
- Element 3: Managing risk understanding people and processes
- Element 4: Health and safety monitoring and measuring

Unit GIC-2 : Risk assessment

- Element 5: Physical and psychological health
- Element 6: Musculoskeletal health
- Element 7: Chemical and biological agents
- Element 8: General workplace issues
- Element 9: Work equipment
- Element 10: Fire
- Element 11: Electricity

Virtual Class Features :-

- Interactive Online Sessions: Engaging and comprehensive live classes with expert tutors.
- Group Discussions & Activities: Collaborate with peers to discuss real world scenarios and solutions.
- Practical Exercises: Hands-on activities to simulate real audit processes.

Key Benefit :-

- Confidently carry out risk assessments
- Develop and implement a detailed action plan
- Manage and minimize workplace risks
- Support and develop a company's health and safety culture
- Ensure your teams undertake their day-to-day activities safely

Who Should Attend :-

- Relevant to every workplace
- Anyone with health and safety management responsibilities
- People starting out in a health and safety career
- Supervisors
- HR professionals
- Engineers
