About the Course

This course is aimed to give delegates a broad overview of accepted concepts and recognized main industrial process risks. They will be able to recognize and contribute to the control of process safety hazards as a result of this.

Our certifications are based on significant research with health, professional safety experts and regulators to ensure that they are relevant, rigorous, and achievable.

Course Content:

The NEBOSH HSE Certificate in Process Safety Management is designed to cover a range of issues affecting process industries.

Key topics covered by this qualification include:

- Establishment of process management systems
- Asset management and maintenance strategies
- Safe start-up and shutdown of process plant
- Performance standard for safety critical systems and equipment
- Hazards and controls for:
 - Chemical reactions
 - Bulk storage of dangerous substances
 - Fire and explosion
- Purpose and features of emergency plans

This unit is divided into the following four key elements:

Process safety leadership
Management of process risk
Process safety hazard control
Fire and explosion protection

Registration Fee:

INR 35,000/-

Who is it for?:

Managers, safety representatives, and health and safety advisors in the process industries,

It is used effectively by industry to help keep people safe from injury and loss of life. For employers this also means protecting valuable assets and avoiding prosecution, litigation and loss of reputation.

People who hold the NEBOSH HSE Certificate in Process Safety Management have practical knowledge that brings real value, wherever they operate. This can help employers achieve international standards and can even help win new business.

Assessment Process:

Learners will complete a multiple choice question assessment. The assessment can be completed online, although a paper-based assessment is available until April 2022. Your Learning Partner will be able to confirm which version of the assessment you are registered for.

A qualification parchment will be sent following successful completion of the examination.

Entry requirements:

There are no entry requirements for this qualification, but it is recommended that learners should already have an underpinning knowledge of health and safety issues, and many will have gained another NEBOSH qualification.

It is also important that learners have a suitable standard of English language in order to understand and articulate the concepts contained in the syllabus.
